

## “Your Premier Supplier For Sheet Extrusion”

**GEMBoard XL®** is the UV protected sheet of choice for your outdoor applications. This high-grade HDPE sheet ranges from .200” to 1.25” thick while meeting ASTM Standards. GEM Plastics can fulfill your color needs through our ability to color match and our selection of over **100 colorants** in stock.

Our full array of optional additives such as Anti-Microbial and Anti-Oxidants protect your projects. GEM Plastics is an industry leader in making stress relieved sheet for a variety of applications. **GEMBoard XL®** HDPE is lab tested for UV and weather exposure per ASTM guidelines.

GEM’s focus is on improving the ease of doing business. That’s why we stock over 2 million lbs of sheet in our new warehouse, operate our own trucks, and home to the friendliest customer service in the industry.

Want to make your project beautiful and durable?

Make it a GEM!
