STERN ALWAYS COMMITTED TO GREEN BUILDING AND WATER EFFICIENCY PRODUCTS

A pioneer in the design of water conservation products with cutting-edge infrared technology, Stern has been producing electronic sanitary products since 1989.

Due to years of chronic water shortage, Stern has been dedicated, since the very first years of its existence, to creating products and technologies that decrease water demand for public and urban use. Stern owns several patents in the field and was one of the first electronic faucets producers. As a groundbreaker, Stern has introduced the public sector to the use of water saving technologies such as: dual flush in electronic flush valves, Piezo activated products with programmable settings and the use of remote control for more effective reduced water consuption.

Stern is the primary manufacturer exclusively producing both the machined product bodies as well as the critical electronic components: solenoid valves, infrared sensors and piezo switches.

Stern's innovative minds are leading the way

With 28 years of successful innovations, Stern has the experience and skill to anticipate consumers' needs. Stern's wide range of touchless products is the result of developing the sanitary solutions to meet those needs:

Lavatory touch free or touch operated faucets, minimalist, angled or robust designs that suit any decorative style.

Wall mounted touch free faucets or touch operated faucets, usually the selected option for the medical sector, wall mounted faucets are also ideal for refurbishment projects.

Touch free soap dispensers to be used with non-proprietary liquid or foam soap.

Behind the mirror lines operated by IR sensor. Options include faucets, soap dispensers and hand dryers for integration behind the mirror and full cabinet.

Touch free exposed or concealed flush valves for W.C. with or without iron frame.

Touch free flush valves for urinals, exposed or concealed versions.

Iron mounting frame set. Innovative system for touch free soap dispenser and touch free faucet, providing a complete solution.

Foot washers. Electronically operated self-closing foot washers for heavy duty areas.

Eco-friendly shower panels, shower controls and shower heads. Vandal resistant products operated by sensor or touch.

STERN'S GREEN BUILDING AND WATER EFFICIENCY PRODUCTS

Stern Engineering places a high priority on products that address today's water conservation concerns. With decades of specialization and experience, Stern plays a central role in transforming electronic faucets from hygienic & water saving products for public bathrooms into reliable, safe and green products for public *and* residential use. Stern is committed to providing smart water delivery solutions that maximize water savings without sacrificing the comfort and convenience of the user experience or the durability and style of the products.

PICTOGRAM KEY

LEED RATING (LEED评级) Ideal product to maximize LEED credits

LEAD FREE (无铅)

Maximum lead content of the product is a weighted average of 0.25%

LED COLORS (LED颜色)

This product features a ring illumation based on LED. Sample colors available (other colors available upon request)

IRON FRAME AVAILABLE (钢制框架安装方式)

This product can be ordered as a kit that includes an iron frame making its installation easier than ever.

STERN MEDICAL (医用系列)

This product belongs to the Stern Medical range and was specially designed for the needs of the healthcare sector.

PREVENTS SCALDING (防止烫伤)

This product includes thermostatic technology. Often, injuries while washing hands or in the shower are caused by slips and falls in reaction to a sudden increase or decrease in water temperature. The termination of hot water flow, immediately eliminates the instinctive but dangerous reaction to move quickly away from a too hot or too cold water stream, helping to prevent scalding.

WAVE & PROX (挥手感应及红外感应)

This product includes a proximity detection sensor or a wave activation sensor that allows activation by placing a hand within a close distance from the sensor eye.

TRENDY SERIES

Electronic lavatory faucet operated by IR sensor.

Series includes options for cold or premixed water as well as hot and cold water, long spout, tall versions for counter top sinks and ring illumination models.

- Drastically reduces water consumption
- No physical contact. Helps to protect users against cross contamination
- Sensor settings adjustable by remote control
- Easy installation
- Internal solenoid valve
- Matching IR operated soap dispenser

PICTURE	PRODUCT NAME	MODEL FEATURES	POWER SUPPLY	CODE NUMBER	DRAWING
	TRENDY BRE	Permanent ring illumination. When a user places his hands within the sensor range, the ring of light blinks while water runs out of the faucet.	9V Transformer	239105	115 108° 70 Ø44
	TRENDY 1000 BRE	Mixer to adjust water temperature Permanent ring illumination. When a user places his hands within the sensor range, the ring of light blinks while water runs out of the faucet.	9V Transformer	239305	115
	TRENDY HABITAT E	Mixer to adjust water temperature Alternative touch operation and ring illumination. Includes a piezo element integrated in the faucet cap for alternative touch operation, used to fill in the sink or a pan. When a user touches the piezo area a flow cycle of 20 seconds is completed. The ring of light will blink while water runs out of the faucet.	9V Transformer	239340	1115 108° 0 021 70 0050
	TRENDY TEMPRA E	Mixer to adjust water temperature. Includes both touch free and touch operations. In addition, these models include a second sensor located inside the faucet body designed for real temperature indication. This second sensor senses the temperature of the water used, and commands the ring of light accordingly. The result is a gradual transition of colors from Blue to Red, that intuitively indicates the real temperature of the water and helps to prevent scalding.	9V Transformer	239410	115 108° 70 0244 70 0550

TRENDY TOUCH SERIES

Electronic lavatory faucet operated by touch.

Features a Piezo element integrated in the faucet cap. Series includes options for cold or premixed water as well as hot and cold water. Includes ring illuminated versions.

- Drastically reduces water consumption
- No moving parts, ideal for heavy duty areas
- Non hold open feature
- More possibilities to save water: the water flow can be stopped in the middle of the cycle
- Stable and accurate water flow that can be changed on site
- Easy installation
- Internal solenoid valve
- Matching IR operated soap dispenser

TRENDY T SERIES

Electronic lavatory faucet operated by IR sensor.

Features an integrated thermostatic mixer for an anti scalding operation and temperature control.

Advantages:

- Lead free
- Thermostatic control for optimum temperature
- Internal stopper allows setting the maximum temperature according to the project requirements
- No physical contact. Helps to protect users against cross contamination and Legionnaire's disease
- Ideal for the healthcare sector
- Easy installation
- Internal solenoid valve
- Matching IR operated soap dispenser

TEMPERATURE FEATURES

HOT LIMIT STOPPER - Mechanical mechanism for built in maximum temperature control at 48.9°C (120°F), factory set. Other values available upon request

COMFORT STOP - Allows limiting the hot water temperature the user can reach, from 38° C (100.4° F) to 48.9° C (120° F).

FIXED TEMPERATURE - Allows the technical staff to set a stable temperature and fix the faucet cap to the specific temperature only.

EXTREME SERIES

Electronic lavatory faucet operated by IR sensor.

Series includes options for cold or premixed water as well as hot and cold water, long spout and tall versions for counter top sinks.

- Drastically reduces water consumption
- No physical contact. Helps to protect users against cross contamination
- Minimalist design with an emotional appeal, perfectly balanced due to its tempting rounded edges and smooth transitions
- Sensor settings adjustable by remote control
- Easy installation
- Internal solenoid valve

EXTREME LF SERIES

Electronic lavatory faucet operated by IR sensor.

Lead free faucet for cold or premixed water with a concealed sensor integrated into the spout.

- Drastically reduces water consumption
- No physical contact. Helps to protect users against cross contamination
- Minimalist design with an emotional appeal, perfectly balanced due to its tempting rounded edges and smooth transitions
- Sensor settings adjustable by remote control
- Easy installation
- The stainless steel AISI316 version is especially valued for its anti-corrosion properties in coastal environments.

EXTREME TOUCH SERIES

Electronic lavatory faucet operated by touch.

Features a Piezo element integrated in the faucet cap. Series includes options for cold or premixed water as well as hot and cold water. Includes ring illuminated versions.

- Drastically reduces water consumption
- No moving parts, ideal for heavy duty areas
- Non hold open feature
- More possibilities to save water: the water flow can be stopped in the middle of the cycle

SWAN SERIES

Electronic lavatory faucet operated by IR sensor.

Series includes options for cold or premixed water as well as hot and cold water.

- Drastically reduces water consumption
- No physical contact. Helps to protect users against cross contamination
- Lead free (Except for BM versions)
- One piece construction, ideal for heavy duty areas
- Versions with internal battery for theft prevention
- Sensor settings adjustable by remote control
- Easy installation
- Internal solenoid valve
- Matching IR operated soap dispenser

CONDOR SERIES

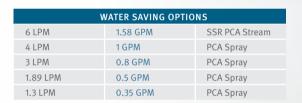

Electronic lavatory faucet operated by IR sensor.

For cold or premixed water.

Integrated panel versions.

- Drastically reduces water consumption
- No physical contact. Helps to protect users against cross contamination
- Lead Free
- Versions with integrated panel to cover old installation holes
- Sensor settings adjustable by remote control
- Easy installation

DOLPHIN SERIES

Electronic lavatory faucet operated by IR sensor.

Series includes options for cold or premixed water as well as hot and cold water.

- Drastically reduces water consumption
- No physical contact. Helps to protect users against cross contamination
- Ideal for the healthcare sector.
- Sensor settings adjustable by remote control
- Easy installation
- Internal solenoid valve (Dolphin 1000 models only)

COOL SERIES

Electronically operated self closing glass filler faucet operated by touch. Operated by a Piezo element integrated in the faucet body.

- Drastically reduces water consumption
- No moving parts, ideal for heavy duty areas
- Non hold open feature
- Lead free
- Easy touch activation to allow use by young children, elderly and disabled people
- Ideal for drinking fountains, coolers and water stations
- Stable and accurate water flow that can be changed on site to fill in a specific glass or bottle size
- Designed for bars, restaurants and commercial food service kitchens
- Easy installation

墙出型全自动感应龙头 WALL MOUNTED FAUCETS

35-56

D28 SERIES

Electronic wall mounted faucet operated by IR sensor. For cold or premixed water.

- Drastically reduces water consumption
- No physical contact. Helps to protect users against cross contamination
- Lead free (D28 & D28 prox models)
- Suits any washroom due to its minimalist design
- Sensor settings adjustable by remote control
- Easy installation
- Matching IR operated soap dispenser

MALMO SERIES

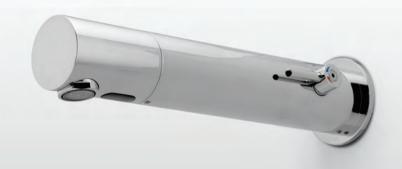

Electronic wall mounted faucet operated by IR sensor. Solenoid valve, sensor and battery are integrated in the spout.

Series includes options for cold or premixed water as well as hot and cold water.

- Drastically reduces water consumption
- No physical contact. Helps to protect users against cross contamination
- Since the sensor, solenoid and battery are inside the body, servicing can be done from the front
- Sensor settings adjustable by remote control
- Easy installation
- Internal solenoid valve
- Matching IR operated soap dispenser

Water will shut off if the users place their hands at a close proximity to the sensor again or once a factory set flow time of 8 seconds will pass. The flow time is adjustable on site by remote control.	9V Battery	316010	
	LONG BRACKET 20	0 MM		07055175	86 137

PROX, WAVE & TOUCH SOLUTIONS

Touch free & Touch operated faucet kits operated by an IR sensor or a Piezo button.

To be integrated in a faucet application to deliver water with or without touch. For cold or premixed water.

Advantages:

Touch Free operation:

- Drastically reduces water consumption
- No physical contact. Helps to protect users against cross contamination
- Sensor settings adjustable by remote control

Touch Operation:

- Drastically reduces water consumption
- Non hold open feature
- More possibilities to save water: the water flow can be stopped in the middle of the cycle
- Stable and accurate water flow that can be changed on site

				CODE	LEED RATING WAVE & PROX OPTIONS
PICTURE	PRODUCT NAME PROX KIT FOR FAUCET	Touch free prox operation. Allows automatic activation when the users bring their hands within the sensor range, and stops when the users remove their hands.	9V Battery / 9V Transformer	NUMBER 620200	DRAWING 28 D-Shape Cut Sheet Front
	WAVE KIT FOR FAUCET	Touch free wave operation. Allows activation of the faucet/ unit once the users place thier hands at a close proximity to the sensor. Water will shut off if the users place their hands at a close proximity to the sensor again or once a factory set flow time of 8 seconds will pass. The flow time is adjustable on site by remote control.	9V Battery / 9V Transformer	620400	Ø36 Ø28 89
	APS KIT FOR FAUCET	Touch operation Allows activation of the faucet/ unit once the users touch the designated area of the Piezo button. Water will shut off if the users touch the designated area again or once a factory set flow time of 8 seconds will pass.	9V Battery / 9V Transformer (not included)	07225008	December 25

全自动感应给皂机 SOAP DISPENSERS

57-82

MULTIFEED KITS 80-82

CLASSIC SOAP DISPENSER

Deck-mounted touch-free electronic soap dispenser for non-proprietary soap

Features:

- 100% heavy-duty one piece brass body
- IR sensor in dispenser spout
- Concealed sensor integrated into the spout
- Peristaltic pump

Options:

- 0.26 US gallon (1L) soap bottle
- 1.6 US gallon (6L) soap tank
- Multiple soap dispensers installation (up to six
 (6) dispensers) with a single 1.6 US gallon (1L) tank
- Matching IR operated faucet
- Remote control

- Drastically reduces soap consumption
- Cross contamination protection no physical contact
- Clog and backflow prevention with designated peristaltic pump
- Accurate soap dosage adjustable by remote control
- Maximized savings can be used with any non-proprietary soap
- Easy to install and refill
- Highly durable for heavy traffic locations

TUBULAR SOAP DISPENSER AISI316

Wall-mounted touch-free electronic soap dispenser for non-proprietary soap

Features:

- Stainless steel AISI316 product body
- 5-7/8" (150mm) long
- IR sensor in dispenser spout
- Peristaltic pump

Options:

- 0.26 US gallon (1L) soap bottle
- 1.6 US gallon (6L) soap tank
- Multiple soap dispensers installation (up to six
 (6) dispensers) with a single 1.6 US gallon (6L) tank
- Matching IR operated faucet
- Remote control

- Drastically reduces soap consumption
- Cross contamination protection no physical contact
- Clog and backflow prevention with designated peristaltic pump
- Accurate soap dosage adjustable by remote control
- Maximized savings can be used with any non-proprietary soap
- Easy to install and refill
- Highly durable for heavy traffic locations

MULTIFEED KITS

Muliple soap dispensers installtion kit

Features:

- Allows multiple soap dispensers installation (up to six (6) dispensers) with a single 1.6 US gallon (6L) tank
- Stainless Steel tank support

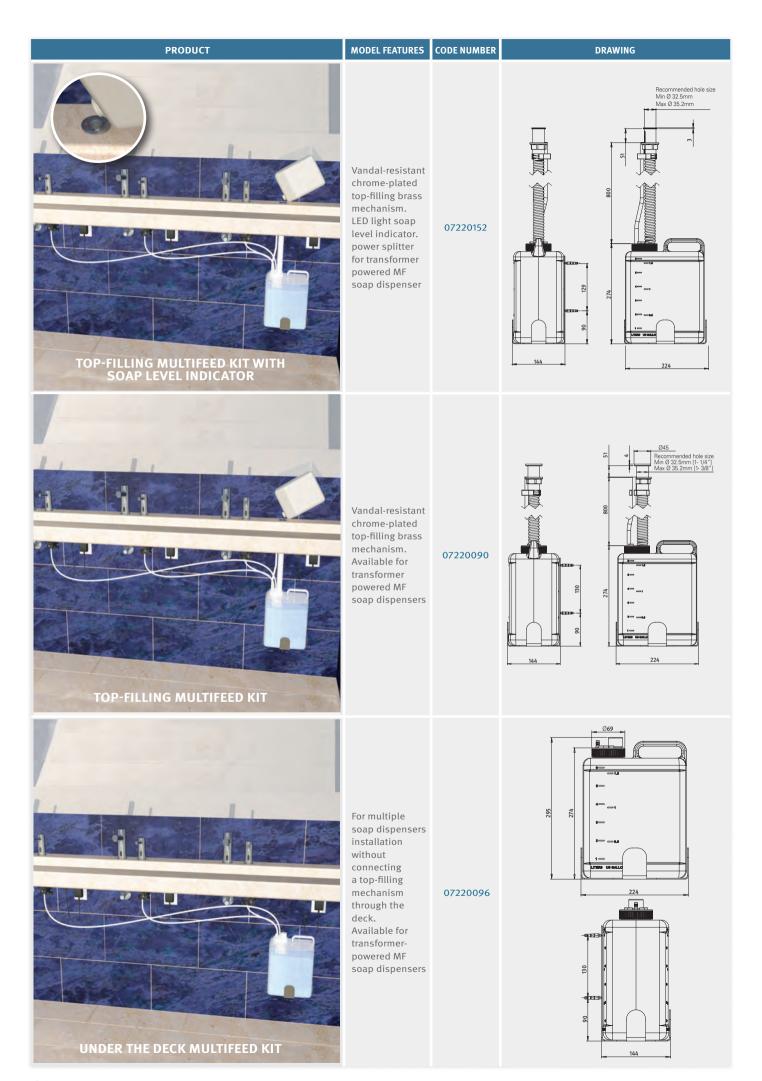

Options:

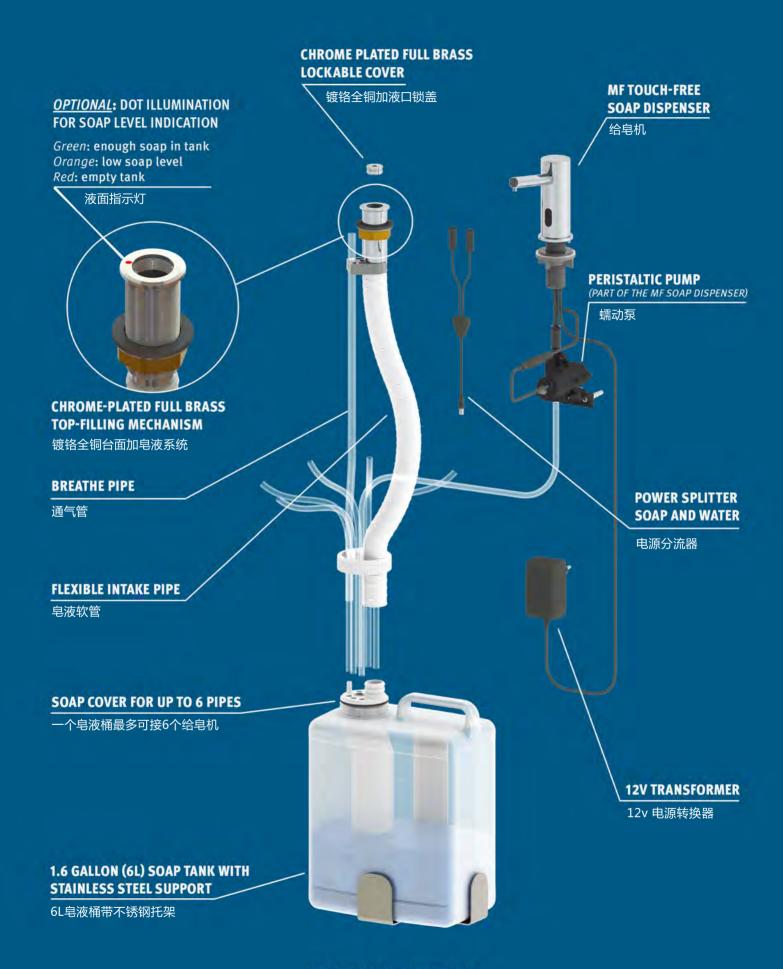

- Anti-theft top filling mechanism for easy refill from the counter top
- Top filling mechanism with anti-theft protection
- LED light indicator of soap level
- Under-the-deck filling mechanism

- Drastically reduces soap consumption
- Cross contamination protection no physical contact
- Maximized savings can be used with any nonproprietary soap
- Easy installation
- Fast and simple refill with optional LED indication of soap level
- Highly durable with optional vandal-resistant top-filling mechanism

BEHIND MIRROR 90 SOAP DISPENSER

SWAR

Complete sanitary cabinet with a lockable mirror.

Includes high speed hand dryer, mixing valve, touch free faucet, touch free soap dispenser and LED pictograms for intuitive user guidance and decoration.

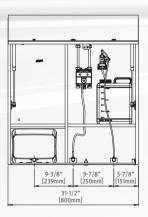

Delivered with remote controls to adjust soap dosage, select light color or sequence and customize the faucet settings.

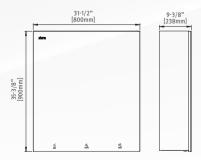

- Eliminates messy, slippery floors and hand drying queues.
- Reduces the amount of labor for commercial facilities maintenance.

Ref: 280460 12V transformer

SWA HI-SPEED MODULE

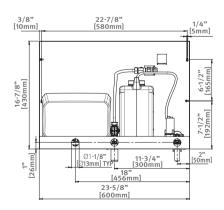

Complete system including high speed hand dryer

- Ready to be integrated behind the mirror for a clear, minimalistic design.
- Eliminates messy, slippery floors and hand drying queues.
- Reduces the amount of labor for commercial facilities maintenance.
- Easy installation with a stainless steel frame to be fixed to the wall.
- Ideal touch free soap-water-air cycle.
- Helps preventing cross contamination.
- Reduces water and soap consumption.
- To be used with non-proprietary soap.
- Drying time: less than 15 seconds.

Complete system including high speed hand dryer (1), thermostatic mixing valve (2), touch free faucet (3) and liquid soap dispenser (4)

Ref: 280410 12V transformer

Modular system including high speed hand dryer (1), touch free faucet (2) and liquid soap dispenser (3)

SWA MODULE

Electronic wall mounted system for integration behind the mirror

- Ready to be integrated behind the mirror for a clear, minimalistic design.
- Eliminates messy, slippery floors and hand drying queues.
- Reduces the amount of labor for commercial facilities
- Easy installation with a stainless steel frame to be fixed to the wall.
- Ideal touch free soap-water-air cycle.
- Helps preventing cross contamination.
- Reduces water and soap consumption.
- To be used with non-proprietary soap.

TAILORED TO YOUR NEEDS:

The SWA Module's complete version includes a touch free soap or foam dispenser, faucet, thermostatic mixing valve and hand dryer. Each component can be delivered individually and any combination is possible.

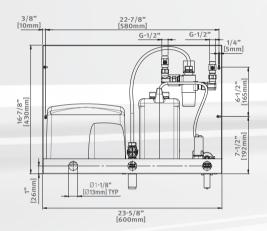

Complete system including hand dryer (1), thermostatic mixing valve (2), touch free faucet (3) and liquid soap dispenser (4)

Modular system including thermostatic mixing valve (2), touch free faucet (3) and liquid soap dispenser (4)

Modular system including hand dryer (1), touch free faucet (3) and liquid soap dispenser (4)

* System including paper dispenser instead of hand dryer also available upon request

BTM FAUCET

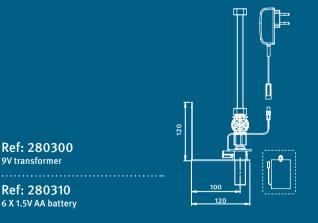

Electronic wall mounted faucet for integration behind the mirror

- Drastically reduces water consumption.
- No physical contact. Helps to protect users against cross contamination.
- Sensor settings adjustable by remote control.
- Easy installation behind the mirror.
- Matching IR operated soap dispenser.

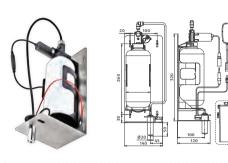

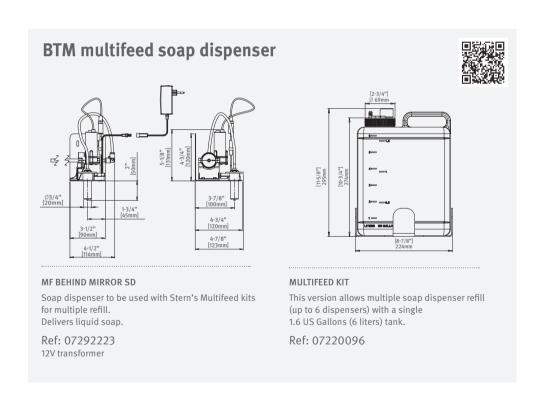

BTM SOAP DISPENSER

Touch free electronic soap dispenser for integration behind the mirror

BEHIND MIRROR SD E Liquid soap Ref: 280200 12V transformer BEHIND MIRROR SD B Liquid soap Ref: 280210 Battery box for 6xD batteries

BTM FOAM E Foam Ref: 280250 12V transformer

- Drastically reduces soap consumption.
- No physical contact. Helps to protect users against cross contamination.
- Peristaltic pump. The soap is driven inside the soap tube without contact with the pump, preventing contamination and back flow.
- Accurate soap dosage.
- To be used with non-proprietary soap for maximum savings.
- Easy to install and refill.
- Matching IR operated faucet.

	PROX KIT FOR SHOWER	Concealed installation in dry or plaster wall. Option for front fixation installation in concrete, brick walls. Touch free Prox Operation Allows automatic activation when the users bring their hands within the sensor range, and stops when the users remove their hands.	9V battery / 9V transformer	620000	
	WAVE KIT FOR SHOWER	Concealed installation in dry or plaster wall. Option for front fixation installation in concrete, brick walls. Touch free Wave Operation Allows activation of the shower once the users place their hands at a close proximity to the sensor. Water will shut off if the users place their hands at a close proximity to the sensor again or once a factory set flow time of 120 seconds will pass. Flow time is adjustable by remote control.	9V battery / 9V transformer	620810	036 036 036 036
	PROGRAMMABLE PIEZO KIT FOR SHOWER	Concealed installation in dry or plaster wall. Option for front fixation installation in concrete, brick walls. Touch Operation Allows activation of the shower / unit once the users touch the designated area in the Piezo button. Water will shut off if the users touch the designated area again or once a factory set flow time of 120 seconds will pass.	9V battery / 9V transformer	07225019	
	APS THREADED ROD KIT SHOWER	Threaded rod solution for piezo kits installations in thick walls. Kit includes Piezo switch, threaded rod with rosette and solenoid valve. Touch Operation Allows activation of the shower / unit once the users touch the designated area in the Piezo button. Water will shut off if the users touch the designated area again or once a factory set flow time of 120 seconds will pass.	9V battery / 9V transformer	07226054	0366 00 00 00 00 00 00 00 00 00 00 00 00 0
	PPS HIGH SECURITY KIT FOR SHOWER	Specially designed for high security environments. The kit includes a shower head and piezo switch that are incorporated in a brass sleeve. For concealed installation in concrete, brick walls.	Not included	07226033	222 777 SE
NEW	PROGRAMMABLE PIEZO KIT FOR BEACH SHOWER COLUMNS	Self-closing piezo kit for showers. Activated by touching the designated area. Kit includes a programmable piezo switch, solenoid valve with housing. Filter and valve are located in the IP67 waterproof dual power input box. The shower will automatically shut off after a factory set flow time of 30 seconds would pass. Flow time adjustable on site if required. Dual power input box can be used to operate the product by battery or transformer. When used with a transformer it has an integrated automatic battery backup.	9V battery / 9V transformer	07226050	970 80 80 57 57

NARA 2030 SERIES

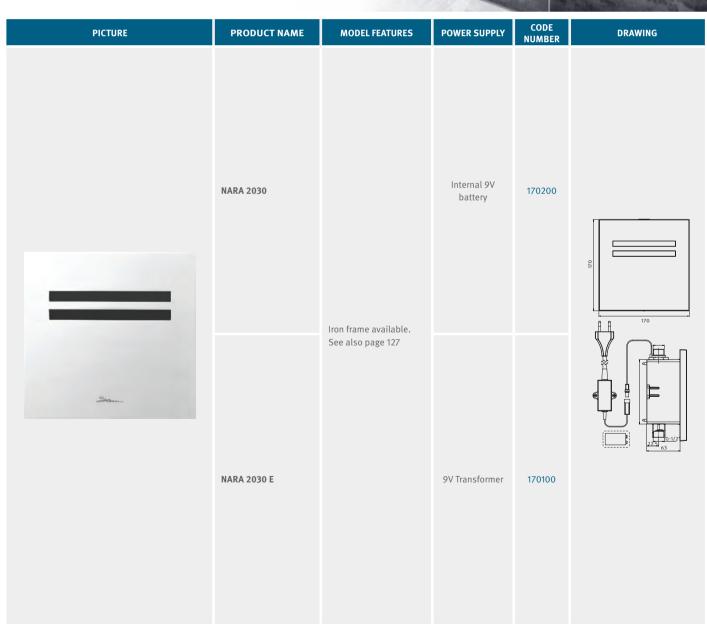

Concealed electronic flush valve for urinal operated by IR sensor. Flushing duration and other settings are adjustable by remote control.

Advantages:

- Drastically reduces water consumption
- No physical contact. Helps to protect users against cross contamination
- Sensor settings adjustable by remote control
- Easy installation
- Matching flush valve for toilets available.

JUPITER 1032 SERIES

Concealed electronic flush valve for urinal operated by IR sensor. Flushing duration and other settings are adjustable by remote control.

Advantages:

- Drastically reduces water consumption
- No physical contact. Helps to protect users against cross contamination
- 100 % brass chrome plated body
- Sensor settings adjustable by remote control

Hygiene Flush: To maximize hygiene, this product is equiped with a 24 hours duty flush. The flush takes place after 24 hours of non use have passed. Prevents the trap seal from drying out, possible freezing of pipes, and gets rid of potential bacteria in stuck water. This function can be disabled using the remote control.

APS KIT FOR TOILETS WITH DISTANT CONTROL

Electronically operated self closing flush valve for toilet with distant control, designated for special needs or high security locations. Can be operated by a Piezo button located in the toilet area, or using the remote panel for alternative operation. Each activation gives a pre-set run cycle.

- Drastically reduces water consumption
- No moving parts, ideal for heavy duty areas
- Non hold open feature
- Easy touch activation to allow use by young children, elderly and disabled people
- Stainless steel AISI316 panel
- Easy installation

PROX, WAVE & TOUCH SOLUTIONS

Touch free & Touch operated flush valve for toilet kits.

Electronic modular flush valve for toilet for installation in the wall or panel. Flushing duration and other settings are adjustable by remote control.

Advantages:

TOUCH FREE OPERATION:

- Drastically reduces water consumption
- No physical contact. Helps to protect users against cross contamination.
- 100 % brass chrome plated housing
- Sensor settings adjustable by remote control
- Easy installation

TOUCH OPERATION:

- Drastically reduces water consumption
- Non hold open feature
- Stable and accurate water flow that can be changed on site
- 100 % brass chrome plated housing

PROX & WAVE SENSOR KIT FOR TOILET WITH PRIMARY FLUSH

This kit is designed to operate a two volumes flush valve. The sensor detects the user at a given distance, and operates an automatic flush using the sensor's prox function once the user has left the toilet. Depending on time and distance, the systems delivers 3 liters to evacuate liquids and 6 liters to evacuate solids. To maximize hygiene, the system allows the user upon arriving to the toilet to operate a primary cleaning flush using the sensor's wave function.

Optional hygiene flush of 24, 48 or 72 hours to be set with the Stern remote control.

Advantages:

- Drastically reduces water consumption
- No physical contact. Helps to protect users against cross contamination.
- Primary cleaning flush upon presentation of hand
- Hygiene flush of 24, 48 or 72 hours.
- Options for duct concealed and brick wall (front fixation) installations.
- Water saving dual flush performance
- Bespoke settings adjustable with the Stern remote control
- Maximum achievement of LEED points

PICTURE	PRODUCT NAME	MODEL FEATURES	POWER SUPPLY	CODE NUMBER	DRAWING
	PROX & WAVE SENSOR KIT FOR TOILET	Suitable for duct concealed installations (plaster walls). Primary cleaning flush Allows the user to operate a cleaning flush before using the system. The 3 liters flush takes places when the user presents his hand at a short distance at the front of the sensor. Dual Flush The system will operate a half flush (3 liters) or a full flush (6 liters) based on a time and distance equation.	9V Battery / 9V Transformer (not included)	620100 (Prox & Wave program)	2/1/2. 89

ELECTROMAGNETIC CISTERN SYSTEM

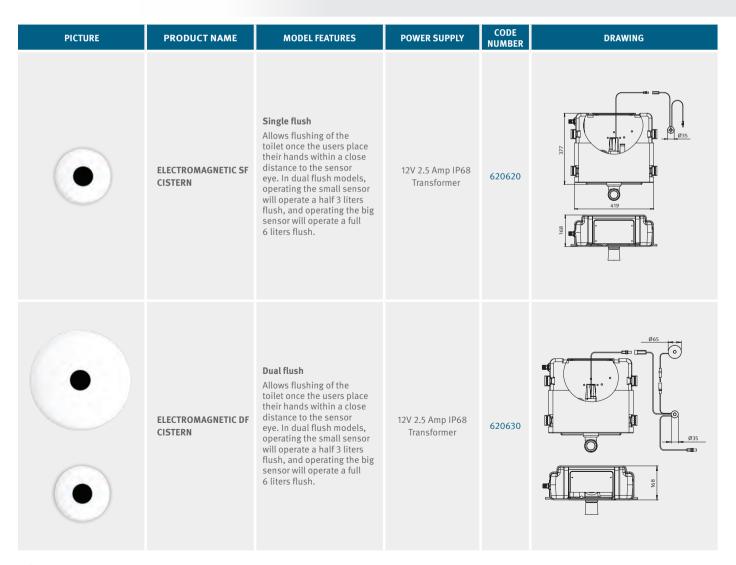

Concealed electronic flushing system for cistern activated by an infrared wave sensor.

Options for a single or dual flush activations. Includes an integral overflow pipe (warning pipe) to prevent flooding, and two integrated filters.

Pre-flush optional upon request. Hygiene flush is included. Flushing duration and other settings are adjustable by remote control.

Advantages:

- Drastically reduces water consumption
- No physical contact. Helps to protect users against cross contamination
- Cistern body in high density polyethylene, sensor unit/s in chrome plated brass
- Integral overflow flood prevention pipe
- Top and side access
- Sensor settings adjustable by remote control
- Easy installation.

REMOTE CONTROL

Allows easy maintenance of extensive installations requiring custom settings.

The remote control allows adjustment of sensor features for all Stern electronic products, while some functions require a compatible product model:

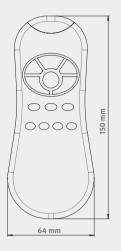

- Sensor range
- Entrance to the self adjustment mode
- Security time
- Short flow time
- Flow time

- Delay in
- Delay out
- 24 hour hygiene flush
- · Lock out time
- Temporary off
- Reset

In addition to the possibility to change settings at liquid or foam soap dispensers, this remote control allows to change settings at Stern matching touch free faucets. The following functions and settings can be changed:

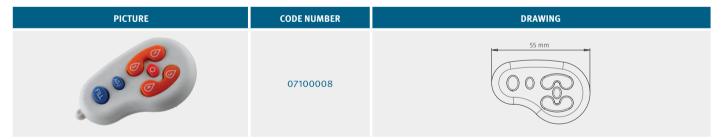

LIQUID SOAP DISPENSERS REMOTE CONTROL

Adjustable settings:

- Soap dosage
- Temporary shutoff function
- Soap tank refill
- Reset to factory settings

FOAM SOAP DISPENSERS REMOTE CONTROL

Adjustable settings:

- Soap dosage
- Air quantity
- Temporary shutoff function
- Soap tank refill
- Reset to factory settings

INTEGRATED THERMOSTATIC

MIXING VALVE

Advantages:

- Includes built in filters and check valves.
- Easy installation
- Thermostatic control for optimum temperature
- Can accommodate connection of up to three (3) faucets.

PICTURE	PRODUCT NAME	MODEL FEATURES	CODE NUMBER	DRAWING
	INTEGRATED THERMOSTATIC MIXING VALVE	C 4/011 in las	07010198	\$550
	INTEGRATED THERMOSTATIC MIXING VALVE 6-PACK	G - 1/2" inlet	07201001	6-1/2*

MECHANICAL MIXING VALVE

Advantages:

- Includes built in filters and check valves.
- Easy installation
- An easy-to-use adjustment allowing pre-mix of hot and cold water.
- Enables the technical staff to manually set the water temperature at any given time.

PICTURE	PRODUCT NAME	MODEL FEATURES	CODE NUMBER	DRAWING

SOLENOID KEY

Specially designed customed key for easy maintenance of the Stern solenoid valves.

PRODUCT NAME	CODE NUMBER	DRAWING
SOLENOID KEY	07590009	

PERFECT TIME SH CONTROL ASSEMBLY

Electronically operated self closing shower panel operated by touch. Operated by a Piezo button in the shower panel. Includes the control panel only.

Advantages:

- Drastically reduces water consumption
- No moving parts, ideal for heavy duty areas
- Non hold open feature
- Aluminum panel with Epoxy coating for high corrosion resistance
- Provides a retrofit solution for old shower systems. Conceals damage and prevents the need of replacing tiles.
- Stern and other manufacturers connectors available

PRODUCT NAME	CODE NUMBER	DRAWING
PERFECT TIME SH CONTROL ASSEMBLY	07040221	170

COVER PLATE

28 mm / 4" deck panel kit. Offers a solution for deck mounted faucets to cover unused mounting holes.

Advantages:

- One hole cover panel, for single hole mount faucets
- Covers 28 mm diamter / 4" mounting holes
- Complete kit with gasket and screw

DUAL POWER INPUT BOXES

The dual power input box can be used to power products with a 9V battery or a 9V transformer.

When used with a transformer it has an integrated automatic battery back-up to be used with a 9V Lithium battery, which enables the product to be used normally in case of a power failure.
